## FIRST AND SECOND ROUND

**SUPERVISED BY:**

+39 320 212 6708 GABRIELE CARDINALE  
+39 327 444 1476 VITTORIA NASONTE

This file is not an official document of Bocconi University. Any numerical data present within this file was obtained through an anonymous survey, to which some students decided to respond with the knowledge that their data would be used for this purpose.

Consequently, the results contained here are not official data and do not come from the University's offices. Moreover, the data entered by survey respondents may not be accurate. For this reason, any inconsistencies between the results reported in this file and the individual outcome eventually received by the reader are certainly caused by carelessness in the calculation of GPAs by individual students or other similar mistakes.

Disclaimers

**A.Y. 2026/2027**

### *Who can apply?*

Bocconi applicants who have at least 90 credits recorded on their transcript by 31 of July 2024 (without regard to GPA), or BSc graduates.

## **GENERAL INFO**

**Applicants**

### *When?*

From July 22nd to October 10th 2024.

### *How?*

GENERAL INFO

2nd Round

# RANKING SCORE

**GPA**, weighted and converted into a score **out of 110**. For applicants who have already graduated, this average corresponds to the weighted average regarding all exams in the study plan (NOT the graduation grade). In the calculation of the average for exams that include more than one module, the individual modules will be considered, not the overall grade. Therefore, the weighted average considered for admissions may be different from the one available in Punto Blu.

**+1** point for status of "**in corso**" student.

**+ 0.05** points for each **extra credit** (of "in corso" students) over the minimum required to submit the application, from educational activities (exams), internships, seminars, eligibility/tests and any other additional activities already present and recorded on the transcript by the deadlines.

*No extra points for participation in an internship or exchange program.*

Points in the ranking will be designated based on these criteria and spots will be assigned in **descending order** from the first place (with the highest score) being allocated to the first choice Master of Science program until **all available places have been filled**, or to the second, third, fourth and fifth choice if necessary, until all available places have been filled.

The **date of submission** of the application **does not** affect the **outcome** of the selection, all participants will be evaluated and placed in the ranking at the end of the application period.

# SURVEY AND WORK METHOD

The following information is based on an anonymous questionnaire to which more than 300 students responded for the first round and 66 for the second.

In the following pages you will find all the answers of the survey:

- First, the responses were divided according to the course at which the respondent was admitted;
- Then, they were rearranged according to the score calculated from the data provided by the student himself;
- Finally, some clearly untrue answers have been deleted.

## **First preference:**

In the survey we asked each respondent also what was the first option he selected, to understand the trend of students' preferences.

## **Merit Award:**

- A scholarship awarded based on merit, motivation letter, and CV.

*Nothing ensures that admission averages will remain similar to this year's.*

# FIRST ROUND LOWER BOUNDS

In this table, we show the lowest score with which respondents were admitted to each MSc during the first round from this year.

Keep in mind that:

- Some students could have been admitted with a lower score but did not fill in our survey.
- Some respondents might have calculated their GPA inaccurately.
- There's nothing ensuring the minimum GPAs will be similar next year.
